Just Tur Exclusives

About us and our pampering

- Handmade has the meaning of something unique: singular, exclusive, rare for the recipient;
- “An intimate and authentic voice whispers to us that what is handmade carries a bit of the soul of the person who does it”;
- Which is linked to zeal, care and attention;
- That done one by one is worth more than the perfect one by the millions;

With this in mind and because we believe so much in uniqueness, care and appreciation for details and personalization, we created our portfolio of pampering, privileging local suppliers, with manual production and that meet our work philosophy, always seeking “something to more”.

Pampering:

- 1.** pleasure, affection, special attention from someone to others;
- 2.** object given to someone, gift;

An artistic illustration of four parrots in a lush tropical environment. The background is filled with various green leaves and flowers, including a large pink and yellow bird-of-paradise flower on the right and a cluster of white flowers at the top. The word "Brasilidade" is written in a large, elegant, dark green cursive font across the center of the image. The parrots are: a large red and blue macaw in the top left, a smaller yellow and blue parrot in the bottom left, a green parrot with a red beak in the bottom center, and a yellow and red parrot in the middle right.

An aerial photograph of a tropical beach. The top half of the image shows vibrant turquoise ocean waves with white foam crashing onto a wide, golden-sand beach. The waves are breaking in a rhythmic pattern, creating a textured, lace-like appearance of white foam against the deep blue-green water. The sand is a warm, light brown color, and the overall scene is bright and serene.
